2005 Permit Year

Annual Hunting & Fishing Permit Distribution & Sales Summary

**Administrative Services Division
Business & Support Services Section
September 2006**

INTRODUCTION

Scope:

This annual hunting and fishing permit distribution and sales summary includes sales data for those permits commonly known as hunting, fishing and trapping permits. These permits are available statewide for general sports and recreational hunting and fishing activities. Commercial permits and special use permits, such as shooting range permits, boat rental permits (tags and envelopes) and daily trout tags, are not included in this sales report. Please refer to ***The Statistical Sales Report*** for information regarding these permit types.

Perspective:

Hunting and fishing permits account for approximately 17.07% of the Department of Conservation's annual revenue. Major revenue categories for Fiscal Year 2006 are as follows:

One/Eighth % Sales Tax	\$99,069,218.68	60.15%
HUNTING AND FISHING PERMITS	\$ 28,113,007.51	17.07%
Commercial and Miscellaneous Permits	\$ 1,610,295.46	.98%
Sales and Rentals	\$ 6,692,100.57	4.06%
Interest	\$ 1,265,130.00	.77%
Miscellaneous Receipts	\$ 3,570,634.58	2.17%
Federal Reimbursements	<u>\$ 24,387,069.07</u>	<u>14.81%</u>
TOTAL	<u>\$164,707,455.87</u>	<u>100%</u>

Permit Year Defined:

Within this sales summary, the sales data reported for the hunting and fishing permits is an accumulation based upon a "Permit Year." Before 1996, the permit year corresponded with the calendar year of January 1 through December 31. The Commission, effective with the selling of the 1996 permits, changed the "permit year" to begin every March 1 and run through until the end of the following February. The Commission changed the "permit year" to correspond with the waterfowl season, which runs until mid-January.

At the beginning of the 1996 "permit year," the Department of Conservation implemented the Point-of-Sale method for selling permits. This new method of selling permits allows the Department to capture sales electronically, at the point where the vendor transacts a permit sale. In addition, with this Point-of-Sale method, generated revenues are drawn electronically from each vendor's designated bank account at a predetermined time.

Permit Distribution Methods:

Before 1996, the Department of Conservation distributed all hunting, fishing and trapping permits; trout and waterfowl stamps to vendors statewide either on a Commission Direct basis or through a County Distributing Agent. At the end of the 1990 permit year, the Commission eliminated County Distributing Agents for distributing permits. Effective with the issue of 1991 permits, the Department of Conservation consigned permits directly to duly appointed permit issuing agents. During this time, the Department distributed the hunting and fishing permits to the permit issuing agents in three separate mailings throughout the year. However, beginning in 1996, the Missouri Department of Conservation began using the Point-of-Sale permit distribution alleviating the need for paper permits and report forms.

The Department of Conservation issued Temporary Permit Books to appointed permit issuing agents, in the event the Point-of-Sale system became dysfunctional. In July 1998, the Department had the Store and Forward Program installed within the Point-of-Sale equipment in hopes to reduce the need for the Temporary Permit Book within the 1999 permit year. This program has proven to be a huge success and diminished the need to use Temporary Permit Books. As customary, only the Trout Park Concessionaires, due to their sales volume and isolated locations, were issued Temporary Permit Books for the 2005 permit year. The Store and Forward Program allows the issuing agents the ability to store the last permit transaction until the system becomes functional again.

In keeping with tradition, the avid hunter and angler is able to purchase their upcoming Annual Hunting and Fishing permits as early as December 1st of the existing permit year, via the Point-of-Sale terminal. This effort allows purchasers the advantage of securing permits for Christmas gift giving, as well as for their personal recreational use. The annual permits are valid from the date of purchase and remain available throughout the permit year. This effort was re-established December 1, 1998 to enhance the Department's permit revenue, by recapturing the lost revenue on Christmas permit sales when the Point-of-Sale System was first implemented and early permit purchases was eliminated.

All remaining hunting and fishing permit types became available for sale on February 1, 2005, one month prior to the beginning of the 2005 permit year, via the Point-of-Sale terminals. The only permits not available at that time were the Fall Deer and Turkey hunting permits. Resident and nonresident fall deer and turkey hunting permits were not made available until July 1, 2005.

As of permit year 2004, landowners (resident and nonresidents) were able to obtain their permit and transportation tags from a permit issuing agent, alleviating the paperwork formerly associated with these permit types.

Beginning with permit year 2000, permits were available for purchase via phone and internet sales handled by ALS (Automated Licensing System). ALS is responsible for providing help desk services for the hunting and fishing vendors, shipping supplies and equipment; and diagnostic assistance with the Point-of-Sale terminals that the hunting and fishing vendors use throughout the State of Missouri.

The Permit Glossary beginning on page 59, lists the majority of permit types that were available for the 2005 permit year. Please refer to the Wildlife Code of Missouri for a complete listing of all permits and prices.

Dollar Value of Sales Defined:

All sale figures presented in this sales summary are accumulated using the stated value of reported sales. The stated value of a permit is the price which the Department assigned for that particular permit privilege. Conservation's permit sales revenue is reduced by the service fee, which the permit issuing agents retain and by any uncollectible account that develops during the permit year.

Service Fee Structure:

During the 2005 permit year, permit issuing agents sold all hunting and fishing permits except those permits sold at Department areas. Department areas retained no fee where Department personnel sold permits. Department areas remitted, the entire stated value of the permit, directly into the Department's depository accounts electronically through the Point-of-Sale (POS) terminal. The Commission reduced fees retained by permit issuing agents, for services performed in selling permits, from 7% to 5% in December 1989.

With the landowner permits being available through the POS terminal effective with permit year 2005, the Department realized the expense, time and effort placed on the issuing agent. Therefore, the agents are awarded an additional \$0.50 per landowner permit transaction processed through their individual POS terminal.

Point-of-Sale Distribution System:

Effective with the 1996 permit year, the Department replaced the paper intensive permit distribution system with a computerized Point-of-Sale automated license system. Permit issuing agents, statewide, can print permits on-site. The permit issuing agents are currently using one generic form, which replaces the 1995 system of 25 different licenses and stamps.

Instead of having selective time-frames for selling permits, all permit types were available for sale on February 1, 2005, except those permits noted on page 2 of this report. Information from the sale of permits is transmitted on-line to the Department over regular telephone lines. With the Point-of-Sale system, the Department now has a complete database of all permit purchasers, which greatly enhances resource management. The Point-of-Sale system eliminates issuing agents completing sales reports and eliminates bond requirements for most of the issuing agents.

The enhancements implemented during Permit Year 2005 eliminated the need to provide transportation tags and have check-in-stations located throughout the State of Missouri, for turkey and landowners to check their game. The Telecheck system was well received and will be a viable resource tool, for comparing harvested game with prior year's records.

The elimination of the "farm-tag" in permit year 2004, method previously used by landowners for tagging their harvested game, has provided an opportunity for the Department's deer biologists to track the number of landowners hunting in Missouri.

The Point-of-Sale system continues to allow:

- Permit sales to be reported electronically by telecommunications via the Point-of-Sale terminal.
- Payments, for permits sold, to be withdrawn electronically from the issuing agent's bank account according to a predetermined weekly or monthly schedule.

- Revenues, obtained from permit sales, to be transferred electronically to the State Treasury depository account.
- Vendors the ability to process a sales transaction, even during downtime, with the new Store and Forward feature, until the system is again functional, alleviating the need for Temporary Permit Books.

Future of POS

This year marks the first year since its inception, that the Point-of-Sale System remained intact, without any updates or modifications. Missouri Department of Conservation is currently in the midst of the 10th year anniversary for the Point-of-Sale System. Permit Year 2006 marks ten (10) years of dedication, commitment for modernizing the licensing business, not only for Missouri, but for other state agencies throughout the United States.

As we prepare to celebrate the Point-of-Sale system's 10th Anniversary and begin Phase III, the challenge before us is to define what is ahead for the Point-of-Sale system. The past ten years, the joint efforts of Central Bank and Automatic Licensing Systems, better known as ALS, have worked reciprocally to provide the current system. However, as we approach the 10th Anniversary, alternative methods of operating systems and the maintenance of the systems must be reviewed, due to a parting of the way between Central Bank and ALS. Bids will go forth, to see who can meet the specifications to keep the Point-of-Sale System running efficiently, without interruption.

The electronic method of issuing permits, Point-of-Sale, was implemented at the onset of the 1996 Permit Year. This change brought Missouri to the forefront of being the leader in technology for State Agencies across the country. We are determined that the integrity and service provided by the Point-of-Sale will continue to be the effective system it has developed into through the years.

HUNTING & FISHING PERMIT ISSUING AGENTS

Number of Issuing Agents/Year (July)

Current Distribution Profile:

As of June 26, 2006 there were 1,355 permit issuing agents in the state.

TEMPORARY PERMITS

The implementation of the Point-of-Sale Method in 1996, for issuing hunting and fishing permits, also brought problems associated with new computerized programs that had to be addressed, prior to activating the new method. Consideration for system failure was addressed, and how to handle the problem of system functionality, during such down times was resolved.

Missouri Department of Conservation decided to provide the hunting and fishing issuing agents with Temporary Permit Books. These books would be utilized to handle the issuance of permits in the event the system's functionality failed. If the system became dysfunctional, the Temporary Permits were used to complete a sales transaction and issue a temporary permit valid for fifteen days, to the permittee. Once the system was functional, the vendor was responsible for entering the sales via the electronic terminal to obtain the actual permit privileges that the permittee purchased.

Beginning with Permit Year 1996, the Department of Conservation was prepared to award each issuing agent an additional fifty-cent reimbursement credit per temporary permit. This credit was issued to the issuing agent for each temporary permit issued correctly through the Point-of-Sale terminal, once it was functional.

The Temporary Permit Books were reconciled annually, and the Department of Conservation issued reconciliation statements to vendors outlining the results. Those vendors who failed to issue the temporary permits back through the Point-of-Sale System were issued a statement showing the Department's share of the fees collected. The vendors retained the 5 percent fee for these permits and remitted the balance reflected on their reconciliation statement directly to the Department of Conservation.

Permit Year 1999, the Missouri Department of Conservation implemented the Store and Forward Program within the Point-of-Sale terminal. This program allowed the issuing agents the ability to store the last permit transaction, on the terminal, until the system was functional again. This program basically has alleviated the need for Temporary Permit Books. The Trout Park Concessionaires, due to their remote locations, were the only hunting and fishing vendors issued Temporary Permit Books for 2005, in the event the system became dysfunctional.

Permit year 2005 indicates the success the Department is experiencing with the Store and Forward Program. This program has proven to be a viable tool for handling down time with the Point-of-Sale System. This represents the third consecutive permit year, since Store and Forward's inception, that the program has successfully retained permittee's sales information until the Point-of-Sale System was functional again. Thereby, relieving permit vendor's the necessity of issuing temporary permits.

NOTE: Effective with the 1996 permit year, anglers and hunters were provided the opportunity to buy: (1) lifetime hunting; (2) lifetime fishing or (3) lifetime conservation partner permits. As of 2002, these permits were based upon their age as opposed to paying one set fee for the permit type. By setting a pre-determined fee based upon age, the Department is able to provide a viable management tool to monitor public interest in outdoor sports while providing cost-savings opportunity for all resident hunters and anglers.

As of Permit Year 2004, bonus deer permits were eliminated and replaced with Nonresident Antlerless Deer Permit. 2003 sales of landowner bonus permits and firearm bonus permits have been combined into this permit. Permittees are able to purchase an unlimited quantity at a nominal cost of \$7 per permit.

NOTE:

Beginning with the 2001 permit year, in an attempt to streamline the issuance of Resident Landowner Deer Permits, the Department decided to utilize the Point-of-Sale system to issue and account for these permits. This step allowed MDC to record all hunting permits comprehensively in a single data base. Landowner permit records had previously been maintained in a separate data base, which made reporting and comparisons difficult.

Please note there is no cost associated with these permits, therefore the above permits are not included in the total permit sales reflected throughout the report. This was done in order to provide a more concise and accurate reflection of permits assigned a stated fee amount to conserve the comparison capability of prior year sales vs the current year sales, without overstating the sales by showing these permits that do not have a fee associated or attached to the permit. However, the issuance of these permits will be reported as shown above, to retain the integrity of this report and for historical purpose.

Continuing its efforts to streamline and minimize efforts of issuing Landowner permits, the 2004 Deer Season saw the Point-of-Sale System take another leap by issuing all of the landowner permits through the automated system. As an incentive for the permit vendors, the Department established a set commission fee of fifty cents (\$0.50) per landowner transaction that was awarded to the vendor for their assistance in providing this service to landowners wanting to hunt deer in Missouri.

NOTES: 1987 marked the beginning of the Department issuing bonus antlerless-only firearm deer permits in unit's quota that had permits remaining after the initial any-deer drawing. Hunters are required to purchase an additional deer hunting permit prior to the deer season if they are chosen for a bonus antlerless-only deer permit. This was increased to a possible two bonus antlerless-only permits in 1994.

Beginning in 1988, archery hunters were allowed to take one deer and one turkey before firearm deer season and one deer and one turkey after the firearm season.

In 1994, the Department began including a check box on the nonresident firearm deer tag, allowing them to hunt in either the regular or muzzleloading firearm season. A separate nonresident muzzleloading firearm deer permit was made available with the 1996 Permit Year.

- (1) - From 1997 to 2000 this permit was known as the Urban Archery Permit and sold for \$5, which are shown above. In Permit Year 2001 the name was changed to Antlerless Only Archery and available in additional counties in Missouri. Effective with Permit Year 2004 the permit is retitled Resident Archery Antlerless Deer Permits and sells in unlimited quantities at \$7 each.
- (2) - Permit Year 2002 began a new pricing method for these permit types based upon age. See page 29 for pricing and sales breakdown of the various permits available. Sales reflected encompass all sales for the lifetime permit shown.
- (3) - Residents of IA, IL, KS & OK have an additional \$25 surcharge for this permit type

**HUNTING AND FISHING PERMITS
CHARGE OFFS AND BOND CLAIMS
1976 THROUGH 2005 PERMIT YEARS**

Prior to May 1981, all permit vendors and distributing agents were included under a blanket bond which paid all losses. In May 1984, all blanket bond coverage was discontinued. All vendors after that date were required to furnish surety bonds in an amount sufficient to cover potential losses. In November 1989, the Department began to waive bonds for issuing agents with at least 30 months of satisfactory experience and a sales volume of less than \$10,000 annually. The average bonded permit issuing agent was required to have \$3,000 coverage at a cost to the issuing agent of approximately \$100 a year.

Beginning with the 1996 permit year and the implementation of the electronic POS method of selling permits, 99.6% of the permit issuing agents were no longer required to furnish a surety bond. The Department's share of the permit sales are now collected electronically from the issuing agents specified bank account. However, each existing permit issuing agent is required to furnish a refundable security deposit for a POS terminal. Existing vendors in 1995, with accounts in good standing, were required to furnish a \$250.00 deposit. Those appointed after 1995 were required to pay a \$550.00 deposit. Vendors requesting additional terminals must furnish \$550.00 per terminal, which is also refundable.

Since the inception of POS, new vendors with poor credit ratings were asked to furnish a Surety Bond or Letter of Credit. In Permit Year 2003, there remained ten (10) vendors who were required to furnish bonds to the Department. However, with the exceptional service POS provides, these remaining vendors were informed, during Permit Year 2004, to cancel their bonds at the time of its renewal date, because the previous bond requirement has been eliminated by the Department.

The following lists the write-offs for the past four years:

Permit Year 2002	\$ 288.85
Permit year 2003	\$ 0.00
Permit year 2004	\$ 0.00
Permit Year 2005	\$1,607.88

It should be noted there were no bond claims filed during this same time period, representing another advantage of using the POS method of selling permits as opposed to the traditional paper method that was used in the early 90's.

PERMIT GLOSSARY

Hunting, fishing and trapping permit requirements are subject to the exception noted in **Section 3CSR10-5.205 of the Wildlife Code of Missouri**. This is a listing of the majority of the permits available to permittees, and does not include all permits. For additional information and a complete listing of all permits available, please refer to Wildlife Code book sections noted.

PERMIT PRIVILEGES:

01 CONSERVATION HERITAGE CARD - \$2.00

Available for residents and nonresidents who participate in both hunting and/or fishing activities. Also, this card serves as record of Hunter Education Certification. It is valid for five years.

05 RESIDENT HUNTING AND FISHING PERMIT - \$19.00

Available to residents whose hunting and fishing activity require both a resident fishing permit and a resident hunting permit. It does not include deer or turkey. (Section 3CSR10-5.330)

10 RESIDENT FISHING PERMIT - \$12.00
